### Approaches to improve the environment

緑や水を生かした潤いある住環境づくりを推進するための公園整備 や農業集落排水による水質浄化を図るとともに、空き缶などゴミの散 乱防止条例やリサイクルでのゴミの減量など総合的な環境美化に取 り組んでいます。

In addition to developing parks to promote the creation of a moist living environment that makes the best use of greenery and water, and purifying water quality by agricultural settlement drainage, we are working on comprehensive environmental beautification that we enact anti-scattering ordinance of garbage such as empty cans and recycle and reduce garbage

# The parks are there for our interaction. Let's do what we can to preserve this rich, natural environment for our future.
